**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I own a video business and work from home. I need ultrafast fiber internet to share my files, and Sonic is a godsend in my city. Their fiber plan is only \$50, saving my family and business thousands of dollars. It was a big upgrade from the DSL speeds we had previously, saving me tons of time as well. Comcast and ATT don't offer Fiber here, or it's many times the price. This is a rural bedroom community on the edge of the (expensive!) Bay Area, so fiber allows my business to stay competitive out here, away from the city centers. We need Sonic and similar competitors!
